Germantown, Wisconsin 53022

Dear Vicki,

I am writing this letter to express my great appreciation for the outstanding job you and your staff did to help us recover from the water disaster our school suffered last summer. Your ability to work with Robbins Sports Surfaces to order and acquire the necessary materials to reconstruct floors in our main gymnasium and dance studio within an incredibly short time frame was nothing short of miraculous! Once the material arrived the flooring systems were installed rapidly without adversely impacting the end quality of the floor. Your staff did an outstanding job with application of lines, the Nicolet logo and the floor finish.

Although aesthetically pleasing, the real success of the project was measured by the reaction of our students and community members that utilize these spaces seven days a week. We have had nothing but positive feedback with the quality of the flooring systems in both the dance studio and the gymnasium. Visiting teams have recognized the quality and playability of the gymnasium floor as well.

In closing, how a school district recovers from over a twelve million dollar disaster is directly dependent on their partners assisting in the recovery process. Baseman Bros. and Robbins Sports Flooring have proven to be outstanding partners. The fact that we have such fantastic new floors is impressive in and of itself, but the fact that it was completed in a matter of weeks is mind boggling!

We truly appreciate your collective efforts to make this possible in our greatest time of need. We feel extremely fortunate having such strong business partners!

Sincerely,

Brian J. Reiels

Brian J. Reiels
